PROFESSIONAL SUMMARY

Systems and Digital Business Engineering graduate with a GPA of 9.4, experienced in software development, data analysis, and IT support. Strong interest in AI and backend development, with hands-on experience in Python, APIs, and cloud technologies. Seeking a junior role to build scalable, data-driven and AI-powered solutions.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, Kotlin, Swift, Ruby

Web & Development: React, JavaScript, HTML, CSS, SCSS, PHP, Tailwind CSS

Tools & Technologies: AWS (Lambda, EC2, S3, CloudWatch), Git, FileZilla, SAP, Power BI, Microsoft Power Apps

Databases: MySQL, MongoDB (SQL & NoSQL)

PROJECTS

Braincrack – Trivia Game Application

- Developed a trivia game initially in Python using Tkinter for GUI development.
- Refactored and rebuilt the application in Kotlin and Swift, applying the Model-View-Controller (MVC) architecture.
- Improved code structure, scalability, and maintainability through separation of concerns.
- Integrated external API consumption to retrieve trivia data from a Firebase JSON database, enabling dynamic content loading
- Implemented game logic, user interaction flows, and dynamic question handling.
- Implemented score tracking and game progression logic
- Technologies: Python, Tkinter, Kotlin, Swift, MVC, Firebase, API Integration

Personal Portfolio Website

- Designed and developed a responsive personal portfolio using React and Tailwind CSS
- Implemented component-based architecture to improve code reusability and scalability
- Built dynamic sections to showcase projects, skills, and professional experience
- Optimized performance and UI/UX for a seamless user experience across devices
- Technologies: React, JavaScript, Tailwind CSS, HTML

PROFESSIONAL EXPERIENCE

Online Data Analyst

TELUS International | Vancouver, Canada | Sep 2023 – Apr 2024

- Performed data analysis and evaluation tasks to improve system accuracy and content quality
- Processed and validated structured data following strict guidelines and quality standards
- Identified inconsistencies and contributed to improving data reliability and performance
- Maintained high accuracy and consistency across large volumes of data

IT Support Intern

Hospital Cemain | Tampico, Tamaulipas | Jan 2025 – May 2025

- Provided technical support for hardware, software, and internal systems, ensuring continuous operation
- Performed preventive and corrective maintenance, reducing system downtime
- Assisted in incident management and troubleshooting in a high-demand hospital environment
- Collaborated with administrative and medical staff to resolve technical issues efficiently

EDUCATION

B.S. in Systems and Digital Business Engineering

IEST Anáhuac | Tampico, Tamaulipas | Aug 2021 – Dec 2025

GPA: 9.4 / 10

Degree completed (Diploma in progress)

CERTIFICATIONS

- Technical Support Fundamentals – Coursera
- IBM Enterprise Design Thinking Practitioner
- TOEFL Certification (C1 Level)

SOFT SKILLS

- Analytical thinking
- Problem solving
- Effective communication
- Team collaboration
- Continuous learning
- Fast adaptation to new technologies
